VA BENEFITS ACCEPTED

WARFIGHTER Sniper Course

"With 10 days a soldier with little or no sniper experience will be ready for combat as a sniper, I saw it with my own eyes. I said that after the course before I deployed and I say that now, downrange."

Comprehensive Sniper Unit Training

GPS, LLC, has been conducting Cohesive Sniper Unit Training for the DoD units since April 2001. And these units greatly increase combat effectiveness by training the entire unit instead of one or two slots at a time.

Take advantage of our 2 week/10 day course using our live-fire urban and desert facility prior to a deployment. We can take students new to sniper rifles and give them the ability to locate, ID, range and hit realistic sized targets past ½ mile using proper multi-team coordinated tactics in two short weeks.

This course specializes in transitioning operators from M4's to tactical long range/sniper skills with SPR/Mk12's or snipers trained on the M24 to the new M110 SASS.

This course is available under
GSA Contract #GS-02F-0164T
